Center for Workplace Strategy

U.S. General Services Administration

Information Technology is the “IT” portion of the “FIT” Program

IT is a critical element to a successful right-sizing project

What IT Costs

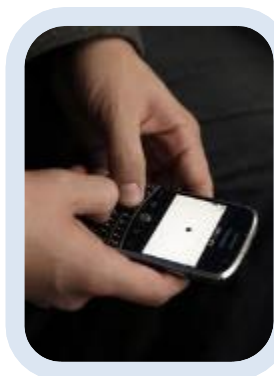

- Federal agencies can buy IT commodities and integrated services faster and at lower prices through GSA.
- Under FIT, GSA procures and pays for the IT equipment that is provided to the client.
- The costs of IT under FIT are amortized over a 3-year supplemental lease occupancy\ agreement.
- There is no interest, however there is an average 5% fee associated with the procurement.

What Is Covered

- Laptops
- Tablets
- Mobile devices
- Printers
- Scanners
- Phones

- Wireless Access Points
- Video Teleconferencing (VTC)
- Networking equipment
- Telecommunications equipment

Information Technology

NOT available through the FIT Program:

- Software licenses
- Extended warranties
- Stand alone wiring
- Technical advisory services
